

**SYNLAWN**<sup>®</sup>  
AUTHORIZED SUPPLIER

## Turf etc. LLC

Turf etc. LLC is an authorized supplier of SYNLawn artificial grass. Since launching the woman-owned company nine years ago, Angela Grego has lead it to exponential growth every year. The company has expanded into five states, where we sell and install SYNLawn.

The reason for that growth is simple. SYNLawn artificial grass is much more than just artificial turf. It's a lifestyle that not

only saves money and precious resources, but also gives our customers more free time to enjoy the important things in life.

Our turf uses natural resources—more than 70 percent of the petroleum-based polyol is replaced with a bio-based polyol made from

soybean plants. SYNLawn products have the longest warranty in the market today. You'll be reducing your carbon footprint by not using lawn equipment.

As for lifestyle and enjoyment, SYNLawn can build you a state-of-the-art putting green with a tee line and bunker for the backyard of your dreams, just like the one we did for Tom Watson! We also specialize in driving ranges for commercial and private country clubs.

We're well known for our playgrounds throughout the area. We've worked exclusively with the Blue Springs, Lee's Summit and Blue Valley School Districts, converting their mulch playgrounds for 24/7 year-round safety. The playgrounds at Union Station, Lenexa Civic Center and at the Richard Bolling Federal Building in downtown Kansas City are a few of the newest playgrounds you can check out.

Turf etc. also installs SYNLawn on patios and rooftops, in pet areas for your residence or your doggie daycare for a clean and safe environment for your furry friends, in landscape areas, and for indoor sports. From your basement to your rooftop, we customize! We are dedicated to excellence in providing the highest quality and service to exceed client expectations. Our company is based on family traditions and principles, and we take pride in developing lasting relationships. ●
